Your Planet, Your Questions

15 June 2021 9 - 10am

**A Great Science Share for Schools event with
the Royal Society and Professor Brian Cox.**

What do you want to know about climate change?

Teachers of 5 - 14 year olds, **register now** and
find out how to submit your pupils' questions
for the expert panel.

THE
**ROYAL
SOCIETY**

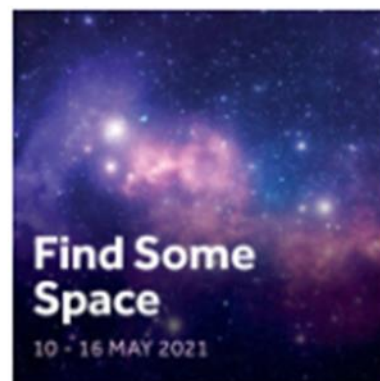

Register now:
greatscienceshare.org

Be curious about air around you. Linked to **National Clean Air Month**, you can share your questions and investigations related to your environment, health and wellbeing.

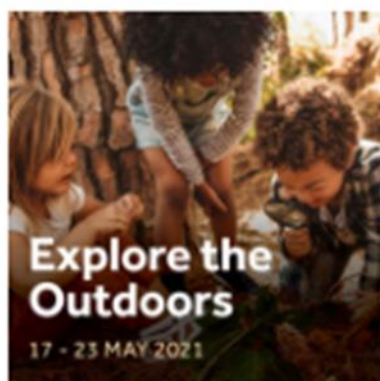

[Explore Clean Air Week](#)

Shoot to the stars to celebrate **International Space Day!**

Be fascinated about what's beyond our planet by asking scientific questions about the Sun, planets and Universe.

[Explore Find Some Space Week](#)

Explore the **Outdoors** and link with **Walk to School Week** and **International Day for Biological Diversity!**

Observe the variety of living things that live with and around us. Listen, see and sense our wonderful world.

Don't waste any more time in tackling our waste problem. **Waste** is a resource that's just waiting to be made useful!

What investigations will you do to question what we reduce, reuse or repurpose?

It's over to you now! It's time to **Take Action**.

What will you explore, examine and make an impact on in your local area? How can you help address the Climate Emergency? From litter picks to projects - the questions are yours.

Dive into **World Oceans Day** by thinking about this years conservation goal to protect 30% of our blue planet so that we have healthy waterways and oceans. Ask and investigate keep water clean or the biodiversity of underwater life.
